Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: amendment filed on **10/5/2004**.
2. This application has been reconsidered. Claims 1-36 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, and 36 are rejected under 35 U.S.C. 102(e) as being anticipated by Endoh (U.S. 6,707,566).

Art Unit: 2626

With respect to claims 1, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 20, 21, 22, 23, 24, 27, 32, and 35, Endoh discloses creating a plurality of printer groups (102-107); for each of the plurality of printers, associating the printer with one or more of the printer groups by assigning a printer identifier (ID, figure 1) with at least one of the printer groups (102-104 and 105 to 107, figure 1 and column 3, lines 20-31), and printer identifier uniquely identifying the printer (ID:1, ID:2, and ID:3 identify printers 102-104 respectively); collecting data from the printers (column 4, lines 53-64), and processing aggregated data of the printer groups (column 4, lines 54-64).

With regard to claim 2, Endoh discloses creating a printer identifier for each printer (column 3, lines 20-31).

With respect to claims 3, 25, 28, 30, 33, Endoh discloses adding an additional printer to the printer groups by associating a printer identifier with the printer groups with identifies the printer (figure 3 and column 5, lines 23-45).

With regard to claims 4, 26, 29, 31, 34, and 36, Endoh discloses removing a printer (column 9, lines 3-15).

Allowable Subject Matter

5. Claims 5 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 10/5/2004 have been fully considered but they are not persuasive. Applicant submits that the cited reference (*Endoh*) does not disclose creating a plurality of printer groups; associating the printer with one or more of the printer groups by assigning a printer identifier with at least one of the one or more printer groups, collecting data from one or more of the plurality of printers; aggregating the collected data by printer group, and processing the aggregated data. The Examiner respectfully disagrees.

Endoh discloses creating a plurality of printer groups (which reads on the printers 102 and 105, printers 103 and 106, and printers 104 and 107); associating the printer with one or more of the printer groups by assigning a printer identifier with at least one of the one or more printer groups (printers 102 and 105 have the identifier "ID:1", printers 103 and 106 have the identifier "ID:2", and printers 104 and 107 have the identifier "ID:3") (figure 1), collecting data from one or more of the plurality of printers (which reads on the user inputting the group address and conditions of the printer) (column 4, lines 57-64); aggregating the collected data by printer group (column 4, lines 57-64), and processing the aggregated data (column 5, lines 50-54).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2626

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
